## **DIRECTIONS FOR USE**

### **RESTRAINTS**

**DO NOT** dispose of spent dip on site. Spent dip waste must be transported to a facility that can lawfully receive it.

<b>CROP</b>	<b>PEST</b>	<b>STATE</b>	<b>RATE</b>	<b>CRITICAL COMMENTS</b>
Aloe vera planting material	Soil borne plant parasitic nematodes	Qld, NSW, WA only	1 L/100 L water	Air dry or cure prepared pups for 48 hours prior to treatment. Immerse unpared pups in Nemacur® 400 Nematicide Liquid dip solution for 30 minutes. Allow to drain and dry. Wear elbow-length chemical resistant gloves when dipping and when handling dipped material.
Banana planting material	Soil borne plant parasitic nematodes	Qld, NSW, WA only	100 mL/100 L water	Pare the planting material to remove all dead tissue. Immerse planting material in Nemacur 400 Nematicide Liquid dip solution for 10 minutes. Allow to drain and dry. Wear elbow-length chemical resistant gloves when dipping and when handling dipped material.

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

**THIS PRODUCT IS TOO HAZARDOUS FOR USE IN THE HOME GARDEN.**

### **WITHHOLDING PERIODS**

**BANANA AND ALOE VERA PLANTING MATERIAL – NOT REQUIRED WHEN USED AS DIRECTED.**

### **EXPORT OF TREATED PRODUCE**

Growers should note that MRLs or import tolerances do not exist in all markets for edible produce treated with Nemacur 400 Nematicide Liquid. If you are growing edible produce for export, please check with AgNova Technologies Pty Ltd for the latest information on MRLs and import tolerances before using Nemacur 400 Nematicide Liquid.

## **GENERAL INSTRUCTIONS**

### **Mixing**

Add the required quantity of Nemacur by pump through the dry break connection system to the dip vat full of water while stirring. Agitate before use if mixture has been left overnight.

### **Accelerated Biodegradation**

As with other soil insecticides the effectiveness of this product may be reduced as a result of the soil microflora developing the ability to biodegrade it at an accelerated rate, particularly after repeated application. If unacceptable control occurs, immediately contact your AgNova Technologies Pty Ltd representative for detailed information. This product should not be used where the user suspects the soil microflora have developed the ability to degrade it at an accelerated rate. AgNova Technologies Pty Ltd accepts no responsibility, and intends by this statement to exclude liability, if the effectiveness of this product is reduced or nullified as a result of accelerated biodegradation, since biodegradation is accelerated by soil characteristics which occur naturally and are beyond AgNova Technologies Pty Ltd's control.

## **INSECTICIDE RESISTANCE WARNING**

### **GROUP 1B INSECTICIDE**

For insecticide resistance management Nemacur 400 Nematicide Liquid is a Group 1B insecticide. Some naturally occurring insect biotypes resistant to Nemacur 400 Nematicide Liquid and other Group 1B insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Nemacur 400 Nematicide Liquid or other Group 1B insecticides are used repeatedly. The effectiveness of Nemacur 400 Nematicide Liquid on resistant individuals could be significantly reduced. Since the occurrence of resistant individuals is difficult to detect prior to use, AgNova Technologies Pty Ltd accepts no liability for any losses that may result from the failure of Nemacur 400 Nematicide Liquid to control resistant insects. Nemacur 400 Nematicide Liquid may be subject to specific resistance management strategies. For further information contact your local suppliers, AgNova Technologies Pty Ltd representative or local agricultural department agronomist.

## **PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT**

Dangerous to fish and other aquatic invertebrates. DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

## **STORAGE AND DISPOSAL**

Store in a locked room or place away from children, animals, food, feedstuffs, seed and fertilisers. Store in the closed, original container in a dry, cool, well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple rinse containers before disposal. Add rinsings to dip tank. Do not dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

## **DIP DISPOSAL**

DO NOT dispose of spent dip on site. Spent dip waste must be transported to a facility that can lawfully receive it.

## **SAFETY DIRECTIONS**

Poisonous if absorbed by skin contact or inhaled or swallowed. Repeated minor exposure may have a cumulative poisoning effect. Will damage eyes and skin. Will irritate the nose and throat. Avoid contact with eyes and skin. DO NOT inhale vapour. When preparing dip and using the prepared dip wear cotton overalls buttoned to the neck and wrist and a washable hat, protective waterproof clothing or a PVC apron, elbow-length chemical resistant gloves and impervious footwear and face shield or goggles. If clothing becomes contaminated with product or wet with spray remove clothing immediately. If product in eyes, wash it out immediately with water. If product or dip on skin, immediately wash area with soap and water. After use and before eating drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves and goggles and contaminated clothing.

## **FIRST AID**

If swallowed, splashed on skin or in eyes, or inhaled, contact a Poisons Information Centre. Phone Australia 13 11 26 or a doctor at once. Remove any contaminated clothing and wash skin thoroughly. If swallowed, activated charcoal may be advised. Give atropine if instructed.

## **SAFETY DATA SHEET**

If additional hazard information is required refer to the Safety Data Sheet. For a copy visit our website at [agnova.com.au](http://agnova.com.au)

## CONDITIONS OF SALE

AgNova Technologies Pty Ltd shall not be liable for any consequential or other loss or damage relating to the supply or subsequent handling or use of this product, unless such liability by law cannot be lawfully excluded or limited. All warranties, conditions or rights implied by statute or other law which may be lawfully excluded are so excluded. Where the liability of AgNova Technologies Pty Ltd for breach of any such statutory warranties and conditions cannot be lawfully excluded but may be limited to it resupplying the product or an equivalent product or the cost of a product or an equivalent product, then the liability of AgNova Technologies Pty Ltd for any breach of such statutory warranty or condition is so limited.
